## Hali-Brite® L802A 36" Refurbished Airport Rotating Beacon

### Applications

L-802A Rotating Beacons are designed primarily for night operation as identification and location markers for airports.

### Features

- Patented stationary lamp system eliminates the gear lubrication maintenance required by conventional gear-drive beacons (U.S. Pat. 5,339,224)
- Qualifies for AIP funding
- Available for exchange or direct purchase
- 36,000 lumen, 400 watt metal-halide lamp
- 20,000 hour typical lamp life (3-4 years)
- One clear lens, one aviation green lens
- Thermally-protected motor eliminates burnouts
- Lamp preset 5° above horizontal, adjustable
- 12 RPM rotation, 24 flashes/minute
- All new stainless steel fasteners
- Plated steel parts
- All new Teflon-coated wire
- Weatherproof aluminum housing, powder coated international orange
- Winterization option available for cold climates
- Optional photocell and/or tell-tale relay
- Warranty 2 years on parts, 1 year on labor (excludes lamps)
- Power Consumption: 635W, 1035W with winterization option
- Manufactured in the USA
