

SAFE-HIT ETL CERTIFIED AIRPORT MARKING SYSTEMS

OVERVIEW

Safe-Hit **reboundable** airport markers are tested and certified by ETL to the FAA's L-853 standard and are certified by ETL to meet the specifications of the **FAA Advisory Circular: 150/5345-39C**.

All airport markers utilize abrasive resistant, Type 5 retroreflective sheeting. The posts are made of co-extruded polyethylene with U.V. inhibitors and can be installed in soil, on asphalt or on concrete. Safe-Hit Airport Markers utilize only high strength plastic fasteners resulting in a product that is superior in corrosion resistance and long term performance. This, combined with the self restoring nature of the Safe-Hit Airport Marker, helps keep life cycle costs among the lowest in the industry.

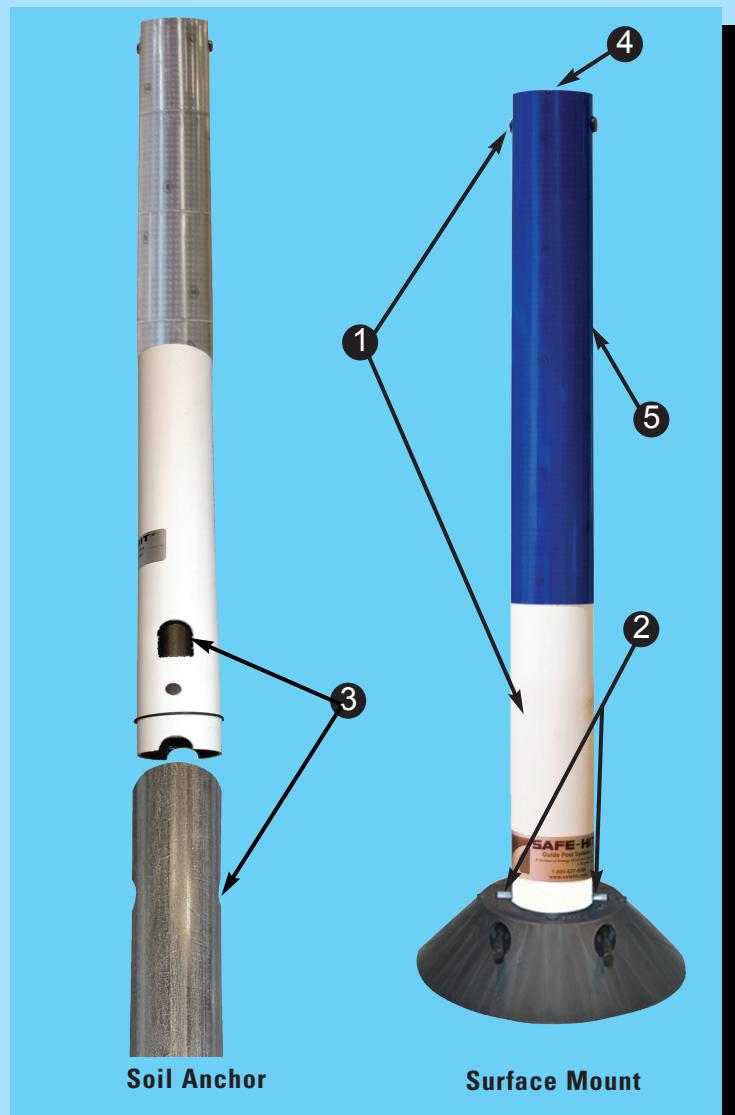

FEATURES AND BENEFITS

- ▶ Durable, 2-1/4" post rebounds to an upright position without human intervention from vehicle impacts, rollovers and wind gusts.
- ▶ Corrosion resistant. No above-ground metal parts of any kind!
- ▶ Integrated locking tabs allow for quick post installation and replacement.
- ▶ Provides 360 degree visibility with abrasive resistant wraparound reflective sheeting. Performs well when impacted by vehicles or jet blast debris.
- ▶ Surface mount and soil anchor versions available.
- ▶ 1-3/4" inner tube provides superior rebound capability.
- ▶ Posts are constructed of UV resistant durable linear low density, co-extruded polyethylene

ADDITIONAL FEATURES & BENEFITS

- 1 ALL PLASTIC CONSTRUCTION & COMPONENTS
- 2 POST-INTEGRATED, QUICK-INSTALL LOCKING PINS
- 3 CORROSION RESISTANT SOIL ANCHOR WITH INTEGRATED LOCKING TABS
- 4 DEBRIS INHIBITING PLASTIC CAP
- 5 ABRASIVE RESISTANT ASTM TYPE V HI-INTENSITY RETROREFLECTIVE SHEETING

SPECIFICATIONS

Post Height	46cm, 61cm or 76cm	(18", 24" or 30")
Post Diameter	57mm	(2-1/4")
Base Diameter	20cm	(8")
Standard Soil Anchor Length	46cm	(18")
Post Color	White, Light Gray, Dark Gray.	
Reflective Sheeting Colors	High-Intensity white, red, blue and green.	
Reflective Length	36cm	(14")
Reflective Type	ASTM Type V abrasive resistant High-Intensity reflective sheeting.	
Reflective Attachment	Adhesively secured (no mechanical fasteners).	
Inner Tube Reinforcement	Diameter: 44mm (1-3/4")	

Reflective colors:

Part No.	Airport Marker Type
SH6xxSMx--Wx-14	Surface Mount
SH6xxGPx--Wx-14	Soil Anchor

Safe-Hit Airport Markers are warranted in accordance with the Federal Aviation Administration requirements.
